NOTICE OF APPLICATION OF SOUTHERN CALIFORNIA EDISON COMPANY REQUEST FOR APPROVAL OF ITS 2024-2031 ENERGY EFFICIENCY (EE) BUSINESS PLAN AND 2024-2027 PORTFOLIO PLAN

Application A.22-03-007

WHY AM I RECEIVING THIS NOTICE?

On March 4, 2022, Southern California Edison (SCE) filed an application with the California Public Utilities Commission (CPUC) requesting approval of its 2024-2031 Energy Efficiency (EE) Business Plan and 2024-2027 Portfolio Plan.

SCE seeks approval of its Business and Portfolio Plans, with a total portfolio request of \$1.767 billion for 2024-2027, to allow SCE to continue to support the development and expansion of EE programs and the EE marketplace as a whole. SCE's application seeks approval not just of ongoing and future resource acquisition programs, but also of SCE's plan to address and develop the market support, equity, and codes and standards segments of the EE portfolio. In addition to seeking approval for its EE Business and Portfolio Plans, in this application SCE also seeks approval of certain new policy recommendations as outlined in SCE Testimony.

WHY IS SCE REQUESTING THIS RATE INCREASE?

SCE requests approval to recover the revenue requirements associated with \$1.767 billion on an annual basis for the period from 2024 to 2027. The total expected recovery for the full period of the application from 2024 to 2031 is \$3.716 billion.

HOW COULD THIS AFFECT MY MONTHLY ELECTRIC RATES?

If the CPUC approves SCE's application as proposed, an average residential customer using 500 kWh per month could see a monthly bill increase of \$1.70 from a current monthly bill of \$149.80.

The following table compares customer rates as of March 1, 2022, to proposed average rates if SCE's application is approved by the CPUC. Due to anticipated changes in rates and/or EE funding levels between the current levels and the levels that will be effective as of the end of 2023, the actual rate and bill impacts of this application may vary from what is shown below:

Proposed Electric Rate Increase¹

Bundled Average Rates (¢/kWh)				
Customer Group	Current Rates	Proposed Increase	Proposed Rates	% Increase
Residential	25.6	0.3	25.9	1.2%
Lighting – Small and Medium Power	25.9	0.3	26.2	1.2%
Large Power	17.8	0.2	18.1	1.3%
Agricultural and Pumping	21.2	0.3	21.5	1.2%
Street and Area Lighting	27.2	0.3	27.5	1.2%
Standby	14.4	0.2	14.6	1.4%
TOTAL	23.3	0.3	23.6	1.3%

Residential Bill Impact (\$/Month)				
Description	Current	Proposed Increase	Proposed	% Increase
Non-CARE residential bill	\$149.80	\$ 1.70	\$151.50	1.1%
CARE residential bill	\$101.37	\$ 1.15	\$102.51	1.1%

¹The table shows the impact of the total program on an average (of four years) annualized basis compared to current rates with current EE funding levels.

HOW DOES THE REST OF THIS PROCESS WORK?

This application will be assigned to CPUC Administrative Law Judge(s) who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge(s) will issue a proposed decision that may adopt SCE's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review SCE's application, including the Public Advocates Office. The Public Advocates Office is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information about the Public Advocates Office, please call **1-415-703-1584**, email **PublicAdvocatesOffice@cpuc.ca.gov**, or visit **PublicAdvocates.cpuc.ca.gov**.
