**NOTICE OF SOUTHERN CALIFORNIA EDISON COMPANY'S
REQUEST TO DECREASE ELECTRIC RATES FOR THE 2018 ENERGY
RESOURCE RECOVERY ACCOUNT REVIEW
APPLICATION 19-04-001**

Summary

On April 1, 2019, Southern California Edison Company (SCE) filed its Energy Resource Recovery Account (ERRA) Review Application (A.19-04-001) with the California Public Utilities Commission (CPUC). The application will review a portion of SCE's ability to obtain electricity on behalf of its customers and its ability to produce energy for its customers from utility-owned resources in 2018. SCE's application requests CPUC approval for a **decrease** in SCE's revenue requirement due to a net over-collection in five authorized SCE memorandum and/or balancing accounts.

This application will review the following 2018 SCE information:

- (1) If the delivery of SCE's electricity, both SCE owned and contracted, was compliant with CPUC regulations;
- (2) If SCE accurately recorded purchases of power and fuel in its ERRA Balancing Account; and
- (3) If SCE managed its contracts with electricity producers in compliance with CPUC regulations and reasonably operated its own generation resources.

In 2018, five authorized SCE memorandum and/or balancing accounts had a net over-collection of funds than were necessary to cover costs.¹ As a result, SCE is requesting a net revenue decrease of \$22.150 million. If the CPUC approves this application, customers' rates will decrease by approximately \$0.03 per kilowatt-hour.

Estimated Impact of This Request on Electric Rates

Compared to revenues as of January 1, 2019, SCE's ERRA Review application requests a system average revenue decrease of \$22.150 million, or 0.2%, beginning in 2020. For illustrative purposes, if the CPUC approves total rates as requested in SCE's application, an average residential electric customer using 550 kilowatt-hours per month could expect to see a decrease of \$0.20 per month, from \$110.12 to \$109.92. The following table shows current rates compared to the proposed revenue and rate changes by customer group.

¹ The five accounts are: Agricultural Account Aggregation Study Memorandum Account; Aliso Canyon Demand Response Program Balancing Account; Building Benchmarking Data Memorandum Account; Department of Energy Litigation Memorandum Account; and the Residential Rate Implementation Memorandum Account.
