Como Ponerse en Contacto con Nosotros

Para obtener información acerca del proyecto de infraestructura Tehachapi Renewable Transmission Project, por favor visite www.sce.com/trtp. También puede enviar un correo electrónico a trtp@sce.com o llamar a nuestra línea de información gratuita al **(877) 795-8787**.

Tehachapi Renewable Transmission Project

PROJECT AT-A-GLANCE

The Tehachapi project is a series of new and upgraded transmission facilities spanning approximately 173 miles. The system upgrade is designed to deliver electricity from renewable energy generators in Kern County, as well as power added to the system from traditional generating sources, south through Los Angeles County and east to the existing Mira Loma Substation in Ontario, San Bernardino County.

Our Commitment

We remain committed to working with communities along the project area to reduce, to the extent possible, the impacts of construction and minimize any inconvenience to residents and businesses during construction.

We will:

- Limit construction hours to comply with all relevant local regulations to the extent feasible; certain construction activities may require us to perform work outside of locally regulated work hours
- Implement dust control, noise abatement and other environmental protection measures
- Provide prior notification to affected property owners of construction activities
- Provide information to local communities on street closures or other activities that could temporarily limit access for area residents and businesses
- Provide contact information for SCE personnel who are available to answer questions that may arise during construction
- Ensure a safe and secure work environment during construction activities

If you have any questions about the scheduled work or other project-related activities in your neighborhood, please contact us at the project hotline at (877) 795-8787 or visit the TRTP website at www.sce.com/trtp.

TRTP construction crews regularly encounter a variety of wildlife, such as this black bear cub which was spotted in Duarte last September. Construction crews receive training on how to work safely knowing wildlife are in the areas we are building.

Safety Corner

SCHEDULE A SAFETY VISIT TO YOUR CHILD'S SCHOOL

Children often are fascinated by electricity. From how it works to how to stay safe, there's a lot to learn. We are happy to share our knowledge by sending one of our employees to speak at your child's school. Contact us 30 days in advance to schedule a speaker: Speakers@SCE.com

FACTS & FIGURES

\$254,947,696

The number of dollars SCE paid in property taxes in the 2013-2014 tax year. SCE pays property taxes twice a year to each of the 19 California counties in which it owns land, land rights or facilities.

GETTING READY TO GO GREEN: UPCOMING CONSTRUCTION ACTIVITIES

During the next three months, TRTP construction activities will include (please note that the construction schedule is tentative and may change depending on weather and other factors):

SEGMENT 4

City of Lancaster and parts of unincorporated Kern and Los Angeles Counties

- Major construction is complete

SEGMENT 5

Cities of Lancaster and Palmdale, and parts of unincorporated Los Angeles County, including Acton

- Major construction is complete

SEGMENT 6

Unincorporated Los Angeles County, including Acton

- Major construction is complete

- Site stabilization and restoration

SEGMENT 10

Parts of unincorporated Kern County

- Major construction is complete

SEGMENT 11

Parts of unincorporated Los Angeles County, including Acton

- Major construction is complete

- Site stabilization and restoration

Every effort will be made to reduce the amount of noise generated by activities related to construction. SCE understands that construction may be inconvenient to local residents. We greatly appreciate your patience as we move to complete construction as quickly and safely as possible.
